A LITTLE BIT OF HEAVEN

Passing the marshy Aichwaldsee, the route leads into the Lower Gail Valley, close to the border triangle of Austria - Slovenia - Italy. After Feistritz an der Gail we pass Nötsch. We continue via Bad Bleiberg, the Dobratsch next to us, towards Villach. Along the Drava River we drive to Spittal an der Drau with the famous Porcia Castle. A story tells that the hard-hearted Countess Salamanca has still not found peace and still haunts the castle. We come to another natural jewel, Lake Millstatt. Lake Millstätter See is the second largest lake in Carinthia, surrounded by mountains. Along its shore we come to Radenthein and further to Feld am See with its emerald green Brennsee. Through the Gegendtal, surrounded by the Nockberge mountains, we also pass Afritzer See - an Eldorado for fishermen. We still touch the Ossiachersee and over the south shore road it goes along the shore of the Wörthersee to Klagenfurt to the Motodrom Harley-Davidson®.
