ADVANTAGE CARINTHIA TOUR

This is a pleasant and relaxing tour through Lower and Central Carinthia. On about 180 km we will experience the beauty and the pleasure of riding through this area. Starting from Lake Faak, the route leads us via Rosegg, Velden and Ludmannsdorf following the Drava River through the sunny Rosental Valley. We will then ride our bikes through the gunsmith town of Ferlach, past the Wildenstein waterfall, one of the highest free-falling waterfalls in Europe, to the town of Völkermarkt. From there we will follow a well-maintained road to Diex which is located at 1,159 m above sea level. Diex has the reputation of being the sunniest community in Austria with an average of 2,300 hours of sunshine per year. We continue riding via Brückl to the historic town of St. Veit on the Glan, which was the capital of Carinthia until 1518. The last section of our ride leads us via Liebenfels to our final destination: the Motodrom Harley-Davidson® dealership on Lake Wörthersee.
